Top Tips

The secret to success is practising **little** and **often**. Use time wisely.

Can you practise these KIRFs while walking to school or during a car journey?

You don't need to practise them all at once: perhaps you could have a fact of the day

Order of difficulty – Ask your child to order these facts from the easiest to the most challenging.

Can they explain why some facts are easier to remember? Then focus on practising the most challenging facts.

Make it fun!

- ▶ Songs and Chants - You can buy Times Tables CDs or find multiplication songs and chants online. If your child creates their own song, this can make the times tables even more memorable.

- ▶ <http://www.topmarks.co.uk/maths-games/hit-the-button>
- ▶ Times Table Rockstars - play online or on the app. Using the 'soundcheck' option will test your child on all of the times tables.
